**CAUTION:** This seed is treated at the manufacturer's recommended rates with Fludioxonil, Mefenoxam, Thiabendazole, Azoxystrobin and Tebuconazole fungicides, Clothianidin insecticide and Bacillus Firmus. **KEEP OUT OF REACH OF CHILDREN AND ANIMALS. DO NOT USE TREATED SEED FOR FEED, FOOD, ETHANOL OR OIL PURPOSES. STORE AWAY FROM FEEDS AND FOODSTUFFS. DO NOT REFILL BAG OR CONTAINER WITH FEED OR FOODSTUFF.**

**HAZARD COMMUNICATION DATA** TREATED SEED CORN — CAUTION  
**Safety & Health:** Wear long-sleeved shirt, long pants, eye protection, shoes, socks and waterproof gloves when handling treated seeds. Treated seed and the dust from treated seed may be harmful if swallowed, inhaled or absorbed through the skin so take the proper precautions to prevent contact. Wash clothing separately from other clothes. In case of emergency, contact provider at 800-342-7123. **Environmental Hazards:** Dispose of all excess treated seed. Left over treated seed may be double sown around the headland or buried away from water sources in accordance with local requirements. Do not contaminate water bodies when disposing of planting equipment washwaters. Dispose of seed packaging in accordance with local requirements. This compound may be highly toxic to bees exposed directly (contact). Ensure that planting equipment is functioning properly in accordance with manufacturing recommendations to minimize seed coat abrasion during planting to reduce dust which can drift to blooming crops or weeds. This compound is toxic to birds and mammals. Treated seeds exposed on soil surface may be hazardous to birds and mammals. Cover or collect treated seeds spilled during loading. **Restrictions**—Corn forage may not be grazed until 30 days after planting. Use planting equipment that will plant treated seed into the soil to a minimum depth of 0.5 inch. Regardless of type of application (seed treatment or foliar), do not apply more than 0.2lbs (Soybean), 0.1lbs (corn), 0.2lbs (cotton) or 0.02lbs (sorghum) of active ingredient Clothianidin per acre per season. For Field Corn, Popcorn and soybeans. **Immediate Plant-back:** Cereal grains, Field corn, popcorn, sweet corn, cotton, rapeseed, canola, soybeans, root and tuber vegetable. **30-Day Plant-back:** Grasses, non-grass animal feeds, dry beans. **8-Month Plant-back:** Sugar cane, **12-Month Plant-back:** Any crops without an earlier plant-back interval. 8/11

**PRODUCT USE STATEMENT:** This seed contains the Herculex® XTRA Insect Protection genes which produce a *Bacillus thuringiensis (Bt)* Cry1F protein and the *BtCry34Aa1* and *Cry35Ab1* proteins. This seed also contains the YIELDGARD® Corn Borer gene which produces a *Bt* Cry1Ab protein. These proteins provide protection against European corn borer, southwestern corn borer, black cutworm, fall armyworm, western bean cutworm, lesser corn stalk borer, southern corn stalk borer, and sugarcane borer, suppress corn earworm; and also provide protection from larval injury caused by western corn rootworm, northern corn rootworm and Mexican corn rootworms. These proteins and the genetic material necessary for their production in corn are registered under EPA Reg. No. 29964-8.

**YOU MUST SIGN A TECHNOLOGY AGREEMENT, READ THE PRODUCT USE GUIDE PRIOR TO PLANTING AND FOLLOW INSECT RESISTANCE MANAGEMENT (IRM) REQUIREMENTS.**

**PATENT STATEMENT:** The Herculex I Insect Resistance technology incorporated into these seeds is protected under U.S. patent numbers: 5,510,474; 5,550,318; 6,020,190; 6,218,188; 6,258,999; 6,573,240; 6,737,273; and 6,943,282. The Herculex RW Insect Resistance technology incorporated into these seeds is protected under the following patent numbers: 5,510,474; 6,020,190; 6,083,499; 6,127,180; 6,340,593; 6,548,291; 6,624,145; and 6,893,872. The purchase of these seeds includes a limited license to produce a single corn crop in the United States (or other applicable production country). The use of seed from such a crop or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is strictly prohibited.

The purchase of these seeds with the YieldGard® Corn Borer gene includes a limited license under patent(s) US 5,352,605; US 5,484,956; US 5,859,347 and US 6,258,999 to produce a single corn crop in the United States. This license does not extend to the use of seed from such crop or the progeny thereof for propagation or seed multiplication. Furthermore, the use of such seed or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is strictly prohibited.

**PRODUCT USE STATEMENT:** This hybrid contains the Roundup Ready® Corn 2 gene developed by Monsanto Company. The Roundup Ready gene provides resistance to glyphosate, the active ingredient in labeled Roundup® branded herbicides. **WARNING:** The Roundup Ready gene will safeguard this hybrid **ONLY** against applications of glyphosate, the active ingredient in labeled Roundup branded herbicides, when applied at labeled rates. The Roundup Ready gene **WILL NOT** safeguard this hybrid against applications of other herbicides which require a different herbicide resistance gene. Always read and follow herbicide label directions prior to use. **ACCIDENTAL APPLICATIONS OF INCOMPATIBLE HERBICIDES TO THIS HYBRID COULD RESULT IN TOTAL CROP LOSS.**

**THIS SEED IS ACQUIRED UNDER AN AGREEMENT THAT INCLUDES THE FOLLOWING TERMS:** The glyphosate tolerance technologies incorporated into these seeds are covered under one or more of the following United States patents: 5,554,798; 5,593,874; 5,641,876; 5,717,084; 5,728,925; 6,025,545; 6,083,878; 6,825,400 and RE39247. The purchase of these seeds includes a limited license to produce a single corn crop in the United States (or other applicable country). This license does not extend to the use of seed of such crop or the progeny thereof for propagation or seed multiplication. Furthermore, the use of such seed or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is strictly prohibited. ®Roundup and Roundup Ready are registered trademarks used under license from Monsanto Co.

RR2 Corn Rev. 5-12  
**PRODUCT USE STATEMENT:** This hybrid contains the LibertyLink® gene developed by Bayer. These seeds and the plants grown from these seeds produce a PAT (phosphinothricin acetyltransferase) protein that provides resistance to the Liberty® Herbicide (glufosinate). **WARNING:** The LibertyLink gene will safeguard this hybrid **ONLY** against applications of Liberty. The LibertyLink gene **WILL NOT** safeguard this hybrid against applications of other herbicides which require a different herbicide resistance gene. Always read and follow herbicide label directions prior to use. **ACCIDENTAL APPLICATIONS OF INCOMPATIBLE HERBICIDES TO THIS HYBRID COULD RESULT IN TOTAL CROP LOSS.**

The herbicide resistance technology contained in this seed is protected at least under one or more of the following U.S. patents: 5,561,236; and 7,112,665. The conditional purchase of these seeds conveys no license under said patents to use these seeds, except to produce a single commercial crop (one time use only) in the United States, and harvesting the grain solely for purposes of food or feed applications or for industrial processing. **In no event shall this seed be used in research or in breeding or for production of planting seed.** LibertyLink® and the Water Droplet Design are trademarks of Bayer.
